IBS iSeries 400 e-Mail

- Ability to distribute spool files or any PC-type file stored on the AS/400 as an attachment.
- Ability to convert spool files to many formats (PDF, TXT, RTF, HTM, PS FFT, etc.)
- Secured - password controlled.
- Ability to use nicknames and distribution lists.
- Unlimited number of recipients, cc: and bcc: addresses.
- Standard "green screen" support allows anyone to take advantage of the productivity that e-mail offers.

The IBS iSeries 400 e-Mail system can stand-alone or be easily integrated with Order Processing, Invoicing, General Ledger or any AS/400 or iSeries business application.

This can be accomplished from an intelligent terminal (PC or Thin Client) or from a standard "green screen" terminal.
